If you've had enough...we can help! We encourage you to "Imagine life minus spam." Unlike other anti-spam solutions, Minus Spam quickly and easily blocks virtually 100% of all spam and viruses before they ever get to your inbox — no matter how the spam is disguised or where it comes from.

Minus Spam proactively filters spam and blocks viruses using our enterprise-class servers. There is no software to install on your computer or email server, and the service begins working for you immediately.

Best of all, Minus Spam works with **all** email servers, **all** email clients and **all** types of standard email. There is never anything to install, update, repair or worry about!

Why does this matter to me?

Years of research and development have led us to the solid conclusion that SPAM AFFECTS EVERYBODY. If you do not address your spam problem now, we can guarantee the following:

- 1) **YOU WILL** spend thousands of dollars trying to repair damage done by excessive email traffic and viruses.
- 2) **YOU WILL** lose, on average, 100+ hours of productivity per employee, per year due to spam and viruses.
- 3) **YOU WILL** be legally vulnerable due to the offensive and/or explicit nature of unsolicited email.

Subscription Pricing

Our tiered pricing is based on the number of user mailboxes. There are no hidden costs - you get exactly what you pay for. Minus Spam Mail Perimeter is guaranteed to block 95% to 99% of unwanted email. Can-the-Spam, Subscribe today!
